

# Highway 11/12 Long-Term Transportation Planning Study

Update 2

September 2011

AECOM has been commissioned to determine immediate modifications, as well as provide a long-term functional plan for both Highway No. 11 and Highway No. 12 between the future Perimeter Highway around Saskatoon and the future alignment of Highway No. 305.

The study is being completed in two phases. Phase I includes alternatives for immediate implementation and Phase II will provide recommendations for three timeframes; short-term, medium-term and long-term.

Phase I of the study is currently underway. The first Public Open House was held in April 2011 where feedback was gathered and will be incorporated into Phase I of the study. Due to the upcoming Provincial election, the second Public Open House is tentatively scheduled for January 2012. The 2<sup>nd</sup> Open House will present alternatives for all four timeframes.

Consultation with the public, area communities, and key stakeholders will be held throughout the study. Meetings and open house sessions will be conducted prior to final selection of recommendations. The dates, times, and locations of public meetings will be provided along with future updates of the study progress.
